Lytle High School/ PTECH Description of Instructional Practices

Early College High School (ECHS) are innovative high schools that allows the population of a high school that is least likely to attend college, the opportunity to work towards a high school diploma and earning 60 college credit hours simultaneously.

ECHS:

- Provide dual credit courses students at no cost
- Offer rigorous instruction and accelerated courses
- Provide academic and social support services in an effort to help students succeed
- Increase a student’s college readiness
- Reduce barriers making college more easily accessible

Lytle High School will commit to providing transportation to St. Philips College for students in the PTECH program. Students will receive instruction in the designated areas from St. Philips College faculty.

Instructional support will be provided at the Lytle High School campus in a variety of manners which will include, but is not limited to, tutoring, academic counseling, and use of technology purchased through both local and grant funds.

LHS teacher will be able to provide additional academic support through differentiation in the classroom.

Students will be provided opportunities to accelerate the instruction of core course through the use of the Plato system. Their progress will be monitored both by a certified teacher and the counselor.
